No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                               Description

Sequence 179, Application US/09220132

Patent No. 650607

GENERAL INFORMATION:

Andrew W.

TITLE OF INVENTION: METHODS AND COMPOSITIONS FOR THE IDENTIFICATION AND ASSESSMENT

TITLE OF INVENTION: OF PROSTATE CANCER THERAPIES AND THE DIAGNOSIS OF PROSTATE CANCE

FILE REPERENCE: 07334-074001

CURRENT APPLICATION NUMBER: US/09/220,132

CURRENT FILING DATE: 1998-12-23
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     265

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Sequence 459, Se
